PROJECTS

Black & White

Purpose for this project was to build ecommerce website.

Black & White it is webshop with coffee. This website contains a dozen products. The central target audience are clients who loved coffee, value good coffee and take care of environment. Stripe was used for payments method. The content of this website is for educational purposes only.

Ocean Pollution

This website is for everyone, however I was mainly aiming at young people who show interest, and would like to learn a bit more about ocean pollution and what to do to help with this issue.

I wanted people to take action. The content of this website is for educational purposes only.

Handy Crane

This is a one page website. Contains main information about the company and what they are offering for their customers along with a wide photo gallery of their products. This was a freelance project.

Mixerzzzz

This site is devoted to the world-famous whisky. The purpose of this page is not to provide extensive book definitions, but to explain what is best mixed with your favorite whisky. CRUD functions was used in this project.
